**CITY OF MARATHON, FLORIDA
RESOLUTION 2008-173**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
MARATHON, FLORIDA, AUTHORIZING ACQUISITION OF
EQUIPMENT FOR CITY RIGHT-OF-WAY MAINTENANCE IN AN
AMOUNT OF \$84,996.20; AND PROVIDING AN EFFECTIVE DATE**

WHEREAS, the City of Marathon (“City”) is responsible for the right of way maintenance within the City’s jurisdictional limits; and

WHEREAS, the City needs to acquire equipment in connection with providing the service referenced above; and

WHEREAS, this equipment is approved for purchase in the City’s adopted Budget for Fiscal Year 2008-2009; and

WHEREAS, under the City’s Purchasing Policies and Guidelines, the City may waive a competitive procurement if it piggybacks on an existing state or county contract for the same equipment or service that was competitively procured; and

WHEREAS, the City desires to take advantage of the Sheriffs Offices and Local Governmental Agencies of the State of Florida Bid Award 08-16-0908 in order to purchase this equipment.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MARATHON, FLORIDA, THAT:

Section 1. The above recitals are true and correct and incorporated herein.

Section 2. The City Council hereby approves the purchase of equipment for City use under State of Florida Bid Award 08-16-0908, which is set forth on Exhibit “A” attached hereto, in an amount not to exceed \$84,996.20.

Section 3. This resolution shall take effect immediately upon its adoption.

PASSED AND APPROVED by the City Council of the City of Marathon, Florida, this 25th day of November, 2008.

THE CITY OF MARATHON, FLORIDA

Mayor Mike Cinque

Tree & Limb Cutters

A SMOOTH CUT FOR THOSE ROUGH JOBS

Welcome to the revolutionary machine that does the work of a chainsaw without the work. BuzzBar[®] sets the standard for all the other machinery in its class with large 26" blades that allow you to cut through the clutter and get those difficult jobs done in no time. So get on the road with a BuzzBar; now nothing stands in your way.

BuzzBar[®]
Tree Limb Cutter

ALAMO
INDUSTRIAL

BuzzBar[®] Tree Limb Cutter

BUILT SHARPER[™]

BuzzBar® Tree Limb Cutter

Power

The BuzzBar is hydraulically-powered by a 38-HP hydraulic motor with power transferring from the motor to the blades by high performance Micro-V belts attached to the rear of the cutter, reducing chances of entanglement.

Blades

The BuzzBar features 26" diameter rotary saw blades made of 3/16" steel, capable of slicing through up to 6" diameter material. Each blade has 60 teeth that are set and filed. An extra set of blades is included with each unit.

Spindles

Belt alignment problems are reduced due to precise machined spindle-housing surfaces. Grease pressure relief fittings are used to prevent blowout of shaft seals. Each shaft also has an anti-wrap guard to protect seals from debris. The 4130 1-3/8" alloy steel spindles have tapered roller bearings for smooth operation and are factory pre-loaded.

Durable

The cutting head main channel is one piece formed 3/16" thick steel coupled with 3/8" thick steel end plates for long life. The Alamo Industrial exclusively patented rear shield is made of 10-gauge steel and formed for stiffness making the cutter ideal for working in heavily vegetated areas.

Easy Maintenance

The unit is easily maintained through a hinged belt guard with quick release fasteners for quick, easy access to the belt tensioner. The tension of the belt is adjusted with a simple slide mechanism. Grease fittings for each saw blade spindle are located on the front of the cutter for easy maintenance.

Mounting

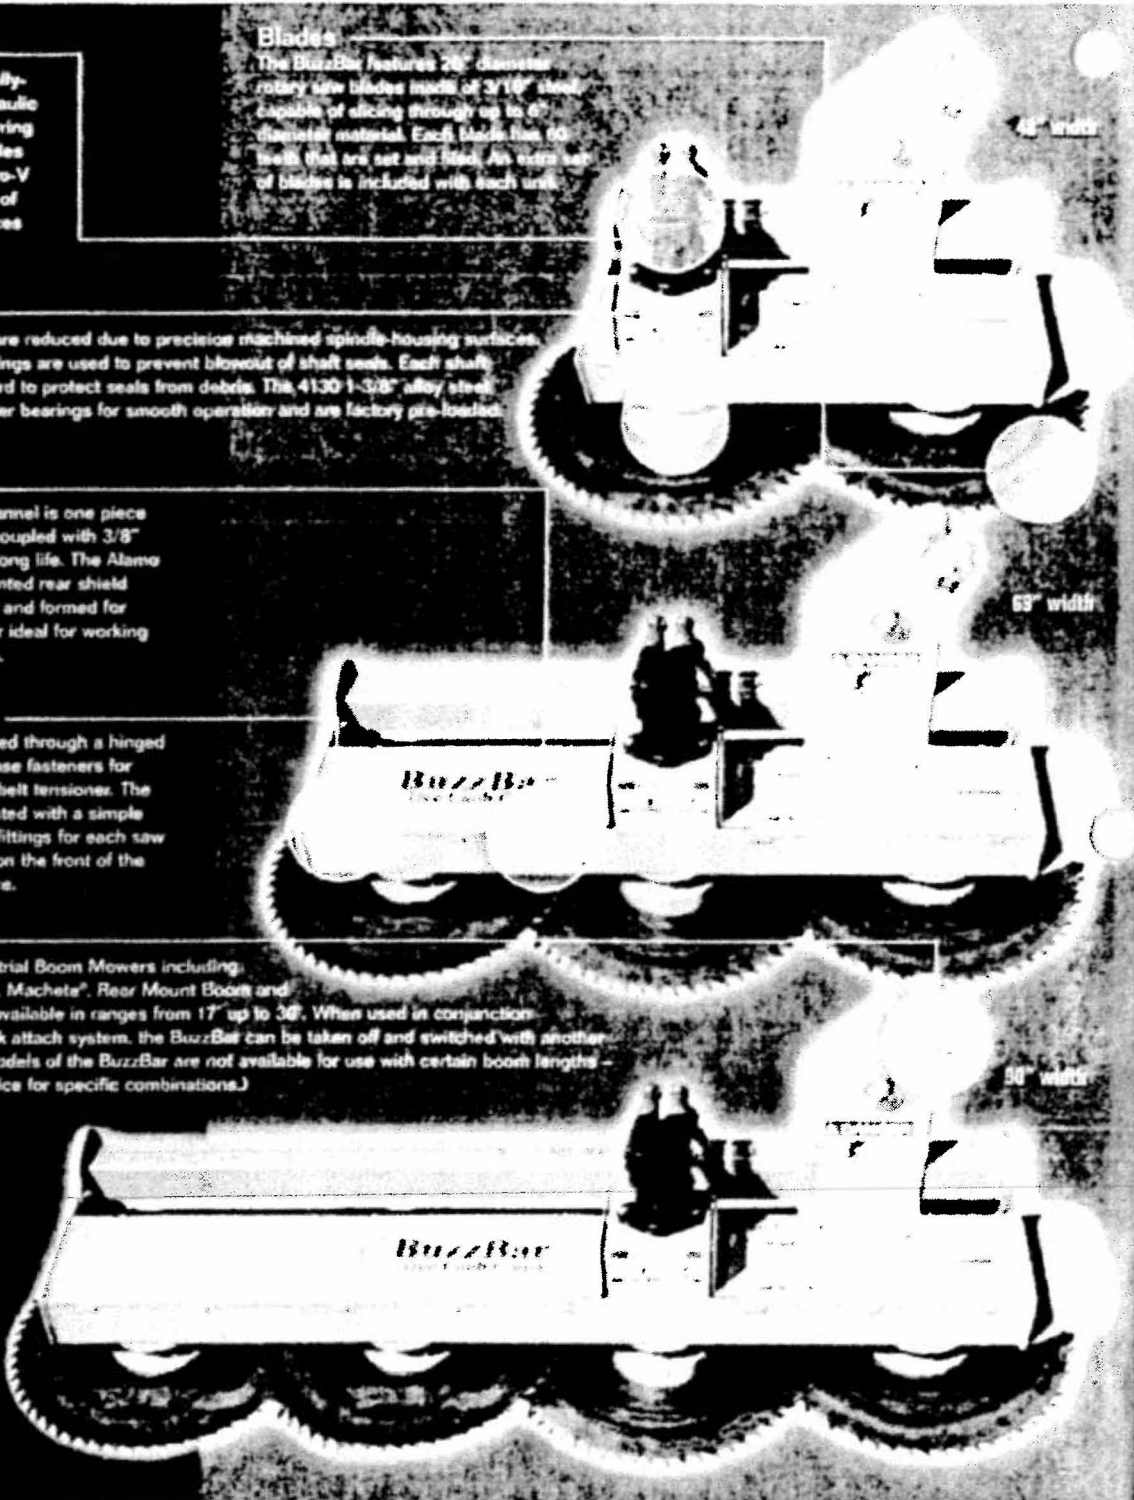

Mounts to all Alamo Industrial Boom Mowers including the A-Boom, Versa™ Boom, Machete™, Rear Mount Boom and the Maverick™, which are available in ranges from 17' up to 36'. When used in conjunction with the Quick Hitch® quick attach system, the BuzzBar can be taken off and switched with another head in minutes! (Some models of the BuzzBar are not available for use with certain boom lengths - inquire with customer service for specific combinations.)

Quick Hitch® quick attach system.
